Notes:

The median number of ranked athletes among all rival promoters in Singer's Ranked Market was 4. This is calculated taking the median of the highest number of unique athletes per year across all years from 2010-2016 for each promoter.

The count of athletes added does not include athletes that participated in bouts for rival promoters in Singer's Ranked Market in the same year.

Athletes that participated in ranked bouts for multiple overseas promoters in the same year are included only once in the count of added athletes for each year.
